LEED Version 3 (2009)

To Whom It May Concern:

Thank you for your inquiry concerning the recycled content of our PVC conduit products.

According to LEED requirements, mechanical, electrical and plumbing components are not to be included in the calculations for recycled content. PVC conduit is an electrical product.

However, we do provide the following information concerning the recycled content of our PVC conduit. Approximately 35% of our raw materials are from recycled sources. There is no post consumer material used in our PVC conduit.

LEED MR Credit 5: Regional Materials

Our PVC conduit manufacturing plant is located in Thomasville, GA.

Very truly yours,

A handwritten signature in cursive script that reads 'Elaine Thompson'.
